TBD	CDP (previously known as Carbon Disclosure Project)	●	●	●	●	●
TBD	TSCA CDR Report (submission period is from June 1, 2024, to September 30, 2024) ⁵				●	

Note: This is not an exhaustive list of reporting deadlines. Facility-specific requirements and deadlines may vary. Trinity suggests checking with local regulators for submission deadlines. Submit or postmark reports by the due date for on-time consideration. If due date falls on a weekend or holiday, Trinity recommends you submit or postmark the prior business day.

¹ Title V semi-annual and annual compliance reports due dates may be based on Title V permit issuance date. Refer to your Air Operating Permit for more details.

² Facility operating reports typically fall on these dates. Please refer to your site-specific operating permit or minor permit for more details.

³ Due every even-numbered year (for example, a report due by March 1, 2024, would report activities from calendar year 2023). The hazardous waste program is administered by EPA instead of ADEC. ADEC is currently developing a hazardous waste program.

⁴ Annual emission inventory reporting is required for Type A facilities and triennial emissions inventory reporting is required for Type B facilities.

⁵ Manufacturers (including importers) are subject to the reporting requirements based on manufacturing (including importing) activities conducted during the calendar years 2020 through 2023.
