Note: This is not an exhaustive list of reporting deadlines. Facility-specific requirements and deadlines may vary. Trinity suggests checking with local regulators for submission deadlines. Submit or postmark reports by the due date for on-time consideration. If due date falls on a weekend or holiday, Trinity recommends you submit or postmark the prior business day.

¹ Due every even-numbered year (for example, a report due by March 1, 2024, would report activities from calendar year 2023).

² Date listed or within 90 days of receiving notice from agency.

³ Emissions Inventories are only required to be submitted if request by the Control Officer.

⁴ Class II permitted facilities must submit every three (3) years beginning June 1, 2021. The next submission is due on June 1, 2024, unless annual submissions are required at the discretion of the Director.

⁵ Manufacturers (including importers) are subject to the reporting requirements based on manufacturing (including importing) activities conducted during the calendar years 2020 through 2023.
