Mar 1	Tier II Report (EPCRA)			●	●	
Mar 31	Air Emissions Inventory ⁶	●				
Mar 31	Greenhouse Gas (GHG) Report	●				

More 2024 reports and deadlines on back

Note: This is not an exhaustive list of reporting deadlines. Facility-specific requirements and deadlines may vary. Trinity suggests checking with local regulators for submission deadlines. Submit or postmark reports by the due date for on-time consideration. If due date falls on a weekend or holiday, Trinity recommends you submit or postmark the prior business day. South Carolina has implemented ePermitting. All reports should be submitted electronically starting January 1, 2024. scdhec.gov/environment/ePermitting

¹ Reporting due dates are based on the first full calendar quarter of permit coverage. January 1 - March 31: report due April 28, April 1 - June 30: report due July 28, July 1 - September 30: report due October 28, October 1 - December 31: report due January 28

² Reporting due dates are based on the effective date of your permit. Effective date between January and March or July and September: reports due January 30 and July 30. Effective date between April and June or October and December: reports due April 30 and October 30. Could also include NSPS Compliance Reports and NESHAP Reports. Some could be offset per Specific MACT. For example, MON is due Feb. and August each year.

³ Reporting due dates are based on the effective date of your permit. Effective date between January and March: report due February 14. Effective date between April and June: report due May 15. Effective date between July and September: report due August 14. Effective date between October and December: report due November 14

⁴ Due every even-numbered year for odd reporting year (for example, a report due by March 1, 2024, would report activities from calendar year 2023).

⁵ The final rule revisions published on February 26, 2020 and effective April 10, 2020 limits this reporting requirement to appliances with a full charge of 50 or more pounds of any class I or class II refrigerant or blend containing a class I or class II refrigerant.

⁶ "Type A" Title V sources as defined in SC Regulation 61-62.1 Section III(B) have an EI due every year. All other sources have EI's due every 3 years. All are due in 2024. Thus due March 31, 2024 for CY 2023.
