*More 2025 reports and deadlines on back*

**Note:** This is not an exhaustive list of reporting deadlines. Facility-specific requirements and deadlines may vary. Trinity suggests checking with local regulators for submission deadlines. Submit or postmark reports by the due date for on-time consideration. If due date falls on a weekend or holiday, Trinity recommends you submit or postmark the prior business day.

<sup>1</sup> Check your site-specific air permits to determine whether they are on the 1/31 & 7/31 schedule or the 3/1 & 9/1 schedule for SAMR's.

<sup>1</sup> Check your site-specific air permits to determine whether they are on the 1/31 & 7/31 schedule or the 3/1 & 9/1 schedule for SAMR's.

<sup>2</sup> Manufacturers (including importers) are subject to the reporting requirements based on manufacturing (including importing) activities conducted during the reporting period. This report is required every 4 years. The last report was due in 2024. The next report will be due in 2028 (covering reporting years for 2024 through 2027).

<sup>3</sup> PFAS reporting under TSCA Section 8(a)(7) is also due in January 2026 which covers import and manufacture of PFAS from 2011 to 2022. This is a one-time data gathering and reporting requirement separate from CDR. While similar to CDR in many ways, the PFAS reporting is much more extensive and does not exclude articles, de minimis concentrations, or low levels of activity.
