More 2025 reports and deadlines on back

Note: This is not an exhaustive list of reporting deadlines. Facility-specific requirements and deadlines may vary. Trinity suggests checking with local regulators for submission deadlines. Submit or postmark reports by the due date for on-time consideration. If due date falls on a weekend or holiday, Trinity recommends you submit or postmark the prior business day.

¹ The annual hazardous waste report and assessment is due by January 1, but the KDOW - HWB allows a grace period until March 1. A report postmarked March 1, but received after March 1 may be assessed a late fee.

² The air emissions survey is due 30 days following the receipt of the survey request letter, which typically arrives in the first or second calendar quarter.

Due Dates	Kentucky Environmental and Sustainability Reports	Air Data	Water Data	Waste Data	Chemical Data	Energy Data
_____	Wastewater DMR ³		●			
_____	Hazardous Waste Annual Registration ⁴			●		
_____	Title V and MACT Compliance Reports ⁵	●				
TBD	CDP (previously known as Carbon Disclosure Project)	●	●	●	●	●
TBD	TSCA CDR Report ⁶				●	
TBD	PFAS Requirements (one time report under TSCA) ⁷				●	

Note: This is not an exhaustive list of reporting deadlines. Facility-specific requirements and deadlines may vary. Trinity suggests checking with local regulators for submission deadlines. Submit or postmark reports by the due date for on-time consideration. If due date falls on a weekend or holiday, Trinity recommends you submit or postmark the prior business day.

³ Discharge Monitoring Reports (DMRs) must be submitted in NetDMR on or before the 28th day of the month following the monitoring period end date, which may be monthly or quarterly as specified in the permit.

⁴ The hazardous waste annual registration (SQG and LQG only) is due 45 days prior to annual registration expiration date.

⁵ Title V and MACT compliance reporting deadlines vary by regulation.

⁶ Manufacturers (including importers) are subject to the reporting requirements based on manufacturing (including importing) activities conducted during the reporting period. This report is required every 4 years. The last report was due in 2024. The next report will be due in 2028 (covering reporting years for 2024 through 2027).

⁷ PFAS reporting under TSCA Section 8(a)(7) is also due in January 2026 which covers import and manufacture of PFAS from 2011 to 2022. This is a one-time data gathering and reporting requirement separate from CDR. While similar to CDR in many ways, the PFAS reporting is much more extensive and does not exclude articles, de minimis concentrations, or low levels of activity.
