*More 2025 reports and deadlines on back*

**Note: This is not an exhaustive list of reporting deadlines. Facility-specific requirements and deadlines may vary. Trinity suggests checking with local regulators for submission deadlines. Submit or postmark reports by the due date for on-time consideration. If due date falls on a weekend or holiday, Trinity recommends you submit or postmark the prior business day.**

<sup>1</sup> Reporting due dates are based on your applicable monitoring period.

<sup>2</sup> Reporting due dates are based on the effective date of your permit.

<sup>3</sup> The final rule revisions published on February 26, 2020 and effective April 10, 2020 limits this reporting requirement to appliances with a full charge of 50 or more pounds of any class I or class II refrigerant or blend containing a class I or class II refrigerant.

<sup>4</sup> Only for "Type A" Title V sources as defined in SC Regulation 61-62.1 Section III(B).

TBD	PFAS Requirements (one time report under TSCA) <sup>7</sup>				●	

**Note: This is not an exhaustive list of reporting deadlines. Facility-specific requirements and deadlines may vary. Trinity suggests checking with local regulators for submission deadlines. Submit or postmark reports by the due date for on-time consideration. If due date falls on a weekend or holiday, Trinity recommends you submit or postmark the prior business day.**

<sup>1</sup> Reporting due dates are based on your applicable monitoring period.

<sup>2</sup> Reporting due dates are based on the effective date of your permit.

<sup>5</sup> Chemical Data Reporting (CDR)

<sup>6</sup> Toxic Substances Control Act (TSCA): Manufacturers (including importers) are subject to the reporting requirements based on manufacturing (including importing) activities conducted during the reporting period. This report is required every 4 years. The last report was due in 2024. The next report will be due in 2028 (covering reporting years for 2024 through 2027).

<sup>7</sup> Per- and Polyfluoroalkyl Substances (PFAS) reporting under TSCA Section 8(a)(7) is also due in January 2026 which covers import and manufacture of PFAS from 2011 to 2022. This is a one-time data gathering and reporting requirement separate from CDR. While similar to CDR in many ways, the PFAS reporting is much more extensive and does not exclude articles, de minimis concentrations, or low levels of activity.
