[More 2025 reports and deadlines on back](#)

Note: This is not an exhaustive list of reporting deadlines. Facility-specific requirements and deadlines may vary. Trinity suggests checking with local regulators for submission deadlines. Submit or postmark reports by the due date for on-time consideration. If due date falls on a weekend or holiday, Trinity recommends you submit or postmark the prior business day.

¹ Invoice will be sent in November 2024. If paid late, a late fee will be assessed.

² LQG facilities can elect to submit an annual report via the electronic reporting system in lieu of reporting quarterly via paper forms. If an LQG facility begins the reporting year by filing a quarterly report, the facility must continue to file quarterly reports through the end of the reporting year.

³ The current fees requirements were sunset on August 28, 2024; therefore, no fees will be required for the 2024 reporting year [RSMo Title XVIII 292.606].

⁴ June 1, 2025 falls on a Sunday. It is recommended to submit or post-mark the reports prior to these due dates.

⁴ June 1, 2025 falls on a Sunday. It is recommended to submit or post-mark the reports prior to these due dates.

⁵ Manufacturers (including importers) are subject to the reporting requirements based on manufacturing (including importing) activities conducted during the reporting period. This report is required every 4 years. The last report was due in 2024. The next report will be due in 2028 (covering reporting years for 2024 through 2027).

⁶ PFAS reporting under TSCA Section 8(a)(7) is also due in January 2026 which covers import and manufacture of PFAS from 2011 to 2022. This is a one-time data gathering and reporting requirement separate from CDR. While similar to CDR in many ways, the PFAS reporting is much more extensive and does not exclude articles, de minimis concentrations, or low levels of activity.
