*More 2026 reports and deadlines on back*

**Note:** This is not an exhaustive list of reporting deadlines. Facility-specific requirements and deadlines may vary. Trinity suggests checking with local regulators for submission deadlines. Submit or postmark reports by the due date for on-time consideration. If due date falls on a weekend or holiday, Trinity recommends you submit or postmark the prior business day.

<sup>1</sup> Check your Title V Permit to confirm whether you have quarterly or semi-annual reporting requirements.

<sup>2</sup> Due every even-numbered year.

<sup>3</sup> EPA has proposed moving the 2025 GHGRP deadline to June 10, 2026 and eliminating most reporting requirements after 2024 (with Subpart W suspended until 2034). Until finalized, current March 31 deadlines remain in effect. See details at [Rulemaking Notices for GHG Reporting | US EPA](#).

<sup>1</sup> Check your Title V Permit to confirm whether you have quarterly or semi-annual reporting requirements.

<sup>4</sup> CDP is a global non-profit that runs the world's only independent environmental disclosure system for companies, capital markets, cities, states and regions to manage their environmental impacts.

<sup>5</sup> PFAS manufacturers have 18 months from the effective date of the rule to report to submit the "TSCA section 8(a)(7) PFAS data call rule" in CDX. Small PFAS manufacturers (see definition in 40 CFR 704.3) who only import articles, the submission period will last twelve months, such that all reporting from these small article importers is due two years from the effective date of the final rule.

<sup>6</sup> Manufacturers (including importers) are subject to the reporting requirements based on manufacturing (including importing) activities conducted during the reporting period. This report is required every 4 years. The last report was due in 2024. The next report will be due in 2028 (covering reporting years for 2024 through 2027).
