| Oct 13 | TSCA PFAS Report ³ | | | | ● | |
| TBD | CDP (previously known as Carbon Disclosure Project) ⁴ | ● | ● | ● | ● | ● |

Note: This is not an exhaustive list of reporting deadlines. Facility-specific requirements and deadlines may vary. Trinity suggests checking with local regulators for submission deadlines. Submit or postmark reports by the due date for on-time consideration. If due date falls on a weekend or holiday, Trinity recommends you submit or postmark the prior business day.

¹ Due every even-numbered year (for example, the next report, due by March 1, 2026, would report activities from calendar year 2025).

² EPA has proposed moving the 2025 GHGRP deadline to June 10, 2026 and eliminating most reporting requirements after 2024 (with Subpart W suspended until 2034). Until finalized, current March 31 deadlines remain in effect. See details at [Rulemaking Notices for GHG Reporting | US EPA](#).

³ In May 2025, EPA announced an interim final rule which extended the dates of the reporting period for data submissions. Submissions are now due by October 13, 2026, for most manufacturers. Small businesses reporting data solely on importing PFAS contained in articles have until April 13, 2027, to submit reports.

⁴ CDP is a global non-profit that runs the world's only independent environmental disclosure system for companies, capital markets, cities, states and regions to manage their environmental impacts.
