Jul 10	Stormwater Discharge Monitoring Report		●			
More 2026 reports and deadlines on back						

**Note:** This is not an exhaustive list of reporting deadlines. Facility-specific requirements and deadlines may vary. Trinity suggests checking with local regulators for submission deadlines. Submit or postmark reports by the due date for on-time consideration. If due date falls on a weekend or holiday, Trinity recommends you submit or postmark the prior business day.

<sup>1</sup> Annual update report is due March 1 for sources that don't pay emissions fees (e.g. registered sources, minor sources). For sources that pay emissions fees (e.g. Title V sources, SM-80 sources) the Annual update report and annual emissions inventory are due together by April 15.

<sup>2</sup> EPA has proposed moving the 2025 GHGRP deadline to June 10, 2026 and eliminating most reporting requirements after 2024 (with Subpart W suspended until 2034). Until finalized, current March 31 deadlines remain in effect. See details at [Rulemaking Notices for GHG Reporting | US EPA](#).

<sup>3</sup> Manufacturers (including importers) are subject to the reporting requirements based on manufacturing (including importing) activities conducted during the calendar years 2011 through 2022.

<sup>4</sup> Due dates for these are specified in the permit.

<sup>5</sup> CDP is a global non-profit that runs the world's only independent environmental disclosure system for companies, capital markets, cities, states and regions to manage their environmental impacts.
